Lekkere kiteboard om mee te leren! Geweldige upwind performance en heel makkelijk om op te varen. Ik verkoop dit boardje omdat ik te weinig er op vaar. Ik ben overgestapt op strapless surf boards. Dus ik hoop dat ik hiermee een beginnende of freeride kiter blij mee kan maken, doe een goed bod en hij is van jouw!
Inclusief footpads en straps!

Meer info: Flat Continuous Rocker gives the board speed and insane upwind performance, while the long backside edge of the Dynamic Asymmetrical Shape ensures perfect control during the ride and enhances the board's upwind performance even further. The shorter toeside edge translates into fast and agile turns, which makes riding on the T5 very smooth indeed. The board's shape makes it easy to learn freestyle, and it is also recommended for learning edge jumps, and the T5 is fully prepared to forgive mistakes.
