(wel even de spatie na de tweede w weghalen :)
Met te veel om op te noemen functies, dus doe ik het toch :)
Maar klein betekent ook klein toetsenbord en dat is voor mijn vingers toch echt te klein. Verder zalig ding.

Helemaal krasvrij, altijd screenprotector opgezet en de cover eromheen. Voor de foto's de screenprotector er af gehaald. Die zet ik terug voor het vervoer.

3-Inch Display
Jelly Star features an ultra-compact design with a 3-inch screen, just the size of a credit card. Its small and lightweight body makes it incredibly portable, so you can take it anywhere you go!
Transparent Back Design
Uniquely designed with a transparent back and LED light, Jelly Star catches a lot of attention in public and turns to be a true conversation starter. It appears in two colors: blue and red, so you can choose the one that feels right to you. (Update: New black version of Jelly Star is now available for ordering.)
Dynamic LED Notification
Jelly Star's LED light pulses with the rhythm of notification sounds, ringtones, music, adding a fun and interactive element to your phone usage.
High Performance

Jelly Star boasts an Octa-Core 6nm MediaTek Helio G99 processor, making it exceptionally powerful to handle any task you throw at it, including fast gaming.
8GB RAM and 128GB Storage
With 8GB RAM and 128GB storage, your phone will completely satisfy all your needs, whether it's running multiple apps or storing a lot of photos and videos!
2000 mAh Battery

Jelly Star comes equipped with a 2000 mAh battery that, coupled with 6nm chipset, ensures extended battery life. You can use your Jelly Star all day long on a single charge without any anxiety about running out of battery.

New 48 MP Camera
Jelly Star's powerful 48MP rear camera and 8MP front camera can produce stunning photos. Whether you're capturing beautiful landscapes, special moments with loved ones, or just taking selfies, Jelly Star
