USW-Pro-Max-24-PoE nieuw in doos voor € 675,-

USW-Pro-Max-24-POE is a 24-port PoE managed switch.

The switch is equipped with 8 2.5 Gb/s Ethernet interfaces compatible with PoE++ (802.3bt) and 16 1 Gb/s Ethernet ports (8 ports compatible with PoE 802.3at and 8 compatible with 802.3bt).

The total power available for PoE ports is as much as 400W. The manufacturer provides two SFP+ 10 Gb/s interfaces as uplink ports.

In addition to the standard functions for L2 switches, USW-Pro-Max-24-POE also includes support for the Layer 3 function and Etherlighting technology - port illumination enabling quick finding of the port and its speed or native VLAN.

The total non-blocking bandwidth of the switch is 56 Gb/s and the switching capacity is up to 112 Gb/s

Main features:

Etherlighting technology enabling visual verification of the port status and configuration
8x 2.5 Gb/s Ethernet ports with support for PoE++ (IEEE 802.3bt)
16x 1 Gb/s Ethernet ports (8x 802.3bt and 8x 802.3at)
2x 10 Gb/s SFP+ interfaces
possibility of using DC emergency power supply
400W for PoE
