

# Yamaha XT660 motorblok (950 EUR)

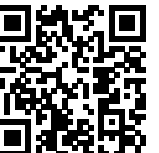

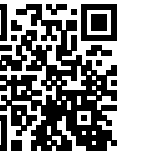

Locatie **Noord-Holland, Alkmaar**  
<https://www.advertentiax.nl/x-2031368-z>

Te koop: motorblok voor een XT660 / XT660R / XT660Z / XT660X

Ik heb het blok (uit een XT660Z Tenere) in 2019 gekocht met <10k op de teller maar met een kapotte 3e versnelling. Ik heb het blok geheel gereviseerd (facturen twv 700+ euro en foto's beschikbaar), zie laatste foto voor oa vervangen onderdelen. Alleen de koppelingsdeksel komt van een oudere XT660R.

Het blok heeft hier gestaan als reserveblok voor onze twee 660's. Deze zijn inmiddels de deur uit, waardoor het blok overbodig is geworden. Het blok is vol in de olie weggezet, maar nooit getest.

Bloksteun en andere verzamelde (blok)onderdelen kunnen ook over worden.

|                                                                                                                                                                                                                       |                                                                                                                                                                                                                        |                                                                                                                                                                                                                        |                                                                                                                                                                                                                        |                                                                                                                                                                                                                         |                                                                                                                                                                                                                          |                                                                                                                                                                                                                          |                                                                                                                                                                                                                          |                                                                                                                                                                                                                          |                                                                                                                                                                                                                          |
