Splash, Water and Dust ResistantIP54*The device with IP54 has been tested to be resistant to splash and dust in the presence of specific laboratory conditions with the classification IP54 ingress protection based on IEC 60529:1989+A1:1999+A2:2013.*Splash-proof, waterproof and dustproof features may be degraded due to daily use loss. Do not charge your smartphone in a humid condition. The life scene is different from the experimental environment. Do not immerse your smartphone in water completely or expose it to solutions such as seawater and chlorinated water or liquids such as drinks during daily use. Your warranty does not cover the damage caused by man-made immersion of your device in liquid.
