

# Renault Clio 1.2 16V 55KW 5-DRS 2011 Nieuwe APK. (3.650, EUR)

Locatie **Gelderland, Tiel**  
<https://www.advertentiax.nl/x-2041692-z>

Hierbij bied ik mijn mooie en perfect onderhouden Renault Clio Collection te koop aan. Door verandering van baan wordt deze Clio overbodig.

De Clio is altijd onderhouden bij de Renault dealer en is recent nog APK gekeurd.

Graag alleen serieus bieden op de advertentie geen onzin biedingen want de auto gaat niet weg onder de 3500€.

- APK t/m 24 Mei 2025.
- Mei 2024 koplampen gepolijst
- Jan 2024 voorzien van 4 nieuwe All season banden van Vredestein
- Mei 2023 grote beurt waaronder:  
 multiriem & distributieset  
 Remblokken en remschijven  
 Oliefilter
- Januari 2023 nieuwe originele uitlaat
- altijd de zomer en winter checks uitgevoerd bij de dealer

Van alle werkzaamheden zijn de facturen aanwezig!

|                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                      |
