Locatie **Zeeland, Terneuzen**
<https://www.advertentiax.nl/x-2045637-z>

Inleiding

For one of our customers we are in search for a Technical Specification Engineer.

Bedrijfsomschrijving

Nouvall Engineering Services is specialized in project support for the (petro) chemical and maritime industry. We provide expertise in the field of Engineering, Project Management, Maintenance, Shutdowns, Construction and Safety.

Functieomschrijving

As Technical Specification Engineer your key responsibilities will include:

- Setting up of (functional) technical specifications for suppliers and subcontractors based upon customer and design requirements.
- Performing technical evaluations of quotations from suppliers in close cooperation with the purchasing department.
- Ensuring full compliance of all applicable requirements imposed by customer and statutory bodies.
- Engaging in technical discussions to achieve comparable levels of compliancy for competing suppliers

of the same product and system and providing a good starting point for the commercial negotiation. This includes and requires supplier enquiries, information and documentation, mechanical drawings, schematics, calculations, electrical diagrams, etc. The role also involves the technical and functional specification of documents for System Description Statements, HAT and SAT procedures. The role also involves the technical and functional specification of documents for System Description Statements, HAT and SAT procedures. The role also involves the technical and functional specification of documents for System Description Statements, HAT and SAT procedures.

- Providing input and updates for the engineering database such as purchase orders, parts, metadata, and documentation.
- Performing required technical calculations to validate the design.
- Composing technical and functional specification documents for System Description Statements, HAT and SAT procedures.
- Verifying technical performance of products and systems such as inspection of equipment at supplier premises, and FAT's.
