Hi! I have already switched to the other set and those kites have not been used since a while. All kites bought new

XR7 10m in very good condition, almost as good as new, no repairs. Only a bit of dirt due to landing on grass. I have used it between 25 to 40 knts - almost as fast as 9 but delivers a bit more power so way more fun on water. Could be great beginner first kite (as the only kite as well). Price was 865 euros, NOW only 805 euros!!!

SOLD XR7 13.5m in perfect condition, almost as good as new, no repairs. I have used it in wind from 15 to 30knts instead of 12m. Delivers a lot of power and fun, very stable and possible to use in less windy day. Price was 1095 euros, NOW only 1015 euros!!!

SOLD XR6 9m used maybe 30-40 times, still in very good shape, unfortunately it has small repair patch due to landing of shell. Material is not cut but scratched and to prevent any issues professionally fixed.

Price was 385 euros, NOW only 305 euros

Negotiations are possible!
