In Stock | 2024 Spider Farmer® 150x150x200 Cm Complete Grow Tent Kit | G1000W Full Spectrum LED Grow Light | 6" Ventilation System With Humidity And Temperature Controller

Hello everyone. A friend of mine has a SpiderFarmer 2024 plant growing tent for sale. Everything was ordered as one complete grow kit, as in the name plus extras. Unfortunately, the tent was sent 2 months after the order, so my friend bought a used tent, installed it, but the tent turned out to be too big for his house, so he wants to sell it. Devices in like new condition! We can say that it was used for 4 hours. The set plus accessories can be valued at 1,600 euros. I know that Spiderfarmer warehouses in Germany are empty and the waiting time is long. All the equipment has been closed for several months, waiting for a new owner. What's included in our carefully selected package: 1 x G1000W Full Spectrum LED Grow Light, 4 x Adjustable Rope Hanger, 1 x 150x150x200 cm Grow Tent, 1 x 6" Inline Duct Fan, 1 x 6" Carbon filter, 1 x Flex Air Aluminum Ducting, 3 x Hose Clamps, 1 x Fan Digital Controller, 2 x Inline Fan Hanging Straps, 2 x Carbon Filter Hanging Straps, 1 x Duct Filter Vent Cover. The tent is still in the box and originally closed, the lamp has been opened, assembled and checked if everything works, the Duct fan has also been removed and connected to check if it works, the air humidifier has been assembled and filled with water. Everything works as it should and produces a lot of water.
