This Samsung LS27R650 27 " Full HD IPS Monitor not only has a modern and sleek appearance, but also contains useful extras that give you a complete solution. For example, this monitor has an extensive set of connections and an IPS panel for the best color reproduction and viewing angles. Thanks to the height-adjustable foot and 360 degree tilt, you have enough flexibility to set the monitor to your liking! The combination of 5ms response time and 75hz makes the Samsung LS27R650F also suitable for fast-moving images (casual gaming). Also not unimportant: The Smart Eco Saving technology achieves energy savings of up to 10%, which does not detract from the image.
