

# Boox page e-reader 7-inch android 11 with cover (190 EUR)

Locatie

Noord-Brabant

<https://www.advertentieX.nl/x-2052979-z>

I bought this in May 2024. It's rarely used and is in perfect condition—Not even one scratch and still under warranty. It runs on Android 11 and works just like a tablet with all the features, apps, and browsing capabilities, but with an e-ink screen. It's perfect for studying as well as casual reading. It's also incredibly light, compact, and well-designed.

These are some of its key features:

- 7" ePaper Screen
- Quad-core CPU
- 2GB RAM + 32GB ROM
- 2,000mAh Battery
- Supports microSD card
- Built-in page-turn buttons
- Built-in speaker
- G-sensor for auto rotation

Please take a look at its description and features on Boox.
