I bought this in May 2024. It's rarely used and is in perfect condition—Not even one scratch and still under warranty. It runs on Android 11 and works just like a tablet with all the features, apps, and browsing capabilities, but with an e-ink screen. It's perfect for studying as well as casual reading. It's also incredibly light, compact, and well-designed.

These are some of its key features: 7" ePaper Screen Quad-core CPU 2GB RAM + 32GB ROM 2,000mAh Battery Supports microSD card Built-in page-turn buttons Built-in speaker G-sensor for auto rotation

Please take a look at its description and features on Boox.
