Dear all,

I am looking to sell my Volkswagen Golf GTE with 245 HP. It's a hybrid car, so it runs on both petrol and electricity, with a range of 50 km on electric power.

If you're interested, I'm happy to send you the complete history of the car!

It is not an import; the car is originally from the Netherlands.

If you're interested, feel free to send me a WhatsApp message at +31638388768.

Including me, there have been three owners of this car: two previous ones, and now myself, making it three.

This car is in good condition, and I've been driving it for almost two and a half years with my wife and our 4-year-old child.

It's a hybrid car, so it runs on both gasoline and electricity.

There are a few minor scratches, but they're barely noticeable, caused by small stones on the road that left light marks.

I've really enjoyed driving this car! I work in IT and now need a bigger car because I have two children, one aged 4 and the other 2.

I need more trunk space, which is why I'm planning to buy a Volkswagen Passat station wagon for the extra luggage capacity.
