

Electrical Engineer

Locatie **Zeeland, Terneuzen**
<https://www.advertentiax.nl/x-2058490-z>

Inleiding

For one of our customer we are in search for a Electrical Engineer.

Bedrijfsomschrijving

Nouvall Engineering Services is specialized in project support for the (petro) chemical and maritime industry. We provide expertise in the field of Engineering, Project Management, Maintenance, Shutdowns, Construction and Safety.

Functieomschrijving

- Developing functional descriptions, drawings, and other engineering documents for power distribution, lighting, and other electrical systems.
- Creating and maintaining specification documents for all electrical components and installation processes.
- Drafting detailed test and validation plans to ensure compliance with regulations and customer requirements during virtual and real-world testing phases.
- Managing vendors and subcontractors to ensure timely project contributions.
- Reviewing vendor and subcontractor designs and integrating them into designs.

- Developing and describing standards and methodologies for detailed engineering and commissioning
- Providing support in all stages of the fielding construction designs of industrial power systems.
- Creating technical specifications and commissioning activities for projects under construction.

+ years of experience designing complex electrical systems, including large power distribution systems, preferably in industrial settings.

- Experience in designing EMC-compliant solutions.
- Professional experience in complex projects involving multidisciplinary teams and multiple suppliers/subcontractors.
- Experience working in a model-based system engineering environment.
