

Honda Prelude IV gen. (4.000, EUR)

Locatie **Noord-Brabant**
<https://www.advertentiex.nl/x-2064575-z>

Hello,

I would like to sell a unique car, a Honda Prelude.
The car was used and serviced regularly.

A project for this Honda has been started, but the costs of maintaining two cars are too high for me.

The car's braking system has been rebuilt: calipers rebuilt, braided cables, new discs and pads.
The entire front suspension was replaced and I added polyurethane The car has a new (sports) exhaust system with a catalytic converter and two mufflers.
The engine has new spark plugs and wires from NGK, and the intake has been changed to a conical one.
Oil changed every 10k.

I add a lot of parts to the car that I bought but didn't have time to replace and a set of rims.

For more photos and details, please contact.
