10.3 inch, full android , Writable. e reader (black and white)

-10.3 inches

- full android (can download any app that you like)

-split screen capability so you can read, take notes, etc on one side and use an app (like one note, etc or email) on the other

-paper-like writing feel. It feels as good as writing on paper

-super thin at 4.5 mm and super light at less than 300g

I am selling it because it doesn't suite me and I don't use it. It's hardly used at all. It comes with all the original packaging + a case and the original pen.

The warranty still has over 1.7 years.

It's in perfect condition . I hope it can be given a good home! I'm happy to negotiate on the price as it's going unused but as it is unused , and with all original items, and is in perfect condition : please make a reasonable.
