Selling my Surface Pro 4 for very cheap as it has an issue with the display. After some time, when the laptop heats up, the display starts to shimmer slightly. If the laptop is kept cool, this will not happen

If you're happy to replace the display it can cost around €45 for a new one, or if you want to use it with an external display, it will still work great. I'll even throw in an adapter for free to use it with a display. So this will be great value for whoever will be happy with these things.

It also comes with a lot of accessories that are worth money on their own. Package includes as follows:

- 1x Microsoft Surface Pro 4, Intel i5 processor, 256GB SSD, 8GB RAM
- 2x Official Charger from Microsoft
- 1x Surface Pro Typecover (some cosmetic damage around the edge from general use. It functions just fine)
- 1x Microsoft Surface Pen- 1x Padded, protective Sleeve
- 1x mini display port to HDMI adapter
