I am selling it because I have stopped Kitefoiling - never had the chance to ride with it. So it is 100% new
 - Price new 999€ - possibility to add footstraps F-one (+50€).

These boards have all the shape features that make them easy and forgiving on the water: Beveled rails, double concave, and specific foiling outline with the wide point well forward. This versatile, light and sturdy board will accompany you on any of your freeride or freestyle foiling adventures.

The POCKET CARBON is incredibly tough and light. Using the SLIM Tech Carbon technology, the board is built around a PVC foam core with a carbon layup. The construction has been improved, and its increased stiffness will bring an outstanding control of the board at all times. Easy to handle and more reactive than ever on the water, this board will make your foiling more rewarding and bring you to the next level.

130×47.

The 130 are equipped with a full deck pad and inserts for three footstraps. All feature the Twin-Tracks system for maximum compatibility with all kind of-
