We give away for FREE a Top sailing boat complete of all the equipment (including boat trailer) and perfectly working. Unfortunately, we are forced to give it away because we do not have enough time to take care of the maintenance and use it. We do not ask for money because we got the boat for free, and we want to keep the tradition.

The boat is old, and due to the wooden hull, it needs some maintenance, especially the hull, which should be repainted. However, as I wrote previously, it works and this summer we used it a few times.

The only item we sell separately is the outboard engine. In case you are interested the price is 500 euros.

The boat is now wintered on the ground at the watersportvereniging Giesbeek and visible to who is.
