

# HP J4899A - HP Procurve 2650 Switch (25 EUR)

Locatie **Groningen, Stadskanaal**  
<https://www.advertentiax.nl/x-2076348-z>

De HPE ProCurve Switch 2650 is een onderdeel van de HP ProCurve Networking 2600-serie, ontworpen voor kosteneffectieve en beheerde netwerken. Deze stapelbare, multi-layer switches bieden 50 of 26 poorten, inclusief 48 of 24 autosensing 10/100 poorten en 2 dual-personality poorten voor 10/100/1000 of mini-GBIC aansluiting. Met HP's Adaptive EDGE Architecture kunnen bedrijven hun netwerk flexibel inrichten om te voldoen aan veranderende zakelijke behoeften, met centraal beheer en intelligente controle aan de rand voor verbeterde beveiliging en betrouwbaarheid. De switches ondersteunen zowel layer 2 als layer 3 switching en zijn geschikt voor het bouwen van veilige, mobiele en multi-service netwerken. Een redundante externe voedingsmodule is optioneel.

|                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                           |
