Wibo 835

## **OPPORTUNITY! RUSH SALE!**

Warning: ENGINE DAMAGE! MOTORSTORING

The following boat is being offered on special offer due to engine damage. The starter starts and the machine turns freely. However, the engine does not start. I suspect it has something to do with the fuel system.

This and Personal circumstances force me to move quickly and sell the Boat ASAP.

Wibo 835

LOA: 8.35m (27ft.) Width: 2.78m Draft: 1m

Engine: bukh DV10. (10hp, no license required)

I took over the boat in Holland last year, overhauled it and sailed it to Sweden and back again over the summer.

On the last few meters to winter storage, the engine finally stopped working. And for the first time this summer, I can't figure it out on my own.
