English below:

Audi A6 Avant 2.4 Automatic

Due to the now large lease car, a 2nd large car is no longer needed. As you can see from the last MOT report to the current mileage it still drives occasionally.

Vehicle drives well. Recently had starter motor and starter battery replaced.

Car has always had everything advised by the garage.

Vehicle has been maintained at the Audi Dealer since new, see photos.

Last MOT 2 new front tires last year, the rear tires already renewed. There is a 2nd set of rims with winter tires with the car.

Tow bar has a 13 pin plug.

Led rear lights and isofix present in the car

Navigation is updated to the latest version available.

Car has a full (light metal spare wheel)

CD changer in the glove compartment.

All books are present of the car. (Manual of the MMI and the car, service booklet).

2 keys with remote control

Rear view camera with sensors, also sensors for.

I am open to sell the car to a buyer who wants to export. (costs of exportpapers are for the buyer)

Any questions feel free to ask. (I speak Dutch/English and basic German
