The Aerius 545 Classic is an ideal touring kayak for day and weekend trips. Thanks to its two air hoses, it is very stable against tipping and immediately gives even beginner paddlers a secure feeling.

The kayak is suitable for sea, calm river, and ocean cruising. For optimal maneuverability, we recommend a steering system. The grey TPU lower hull material with a reinforced keel strip is robust enough for ground contact. Longer stowage is made possible with an updated hold concept and the optimal centre of gravity achieved with the wide longitudinally adjustable seat and foot
