

Site Piping Engineer

Locatie **Zeeland, Terneuzen**
<https://www.advertentiex.nl/x-2083093-z>

Inleiding

For one of our customers in Belgium we are in search for a Site Piping Engineer.

Bedrijfsomschrijving

Nouvall Engineering Services is specialized in project support for the (petro) chemical and maritime industry. We provide expertise in the field of Engineering, Project Management, Maintenance, Shutdowns, Construction and Safety.

Functieomschrijving

- Support the Engineering Manager in the performance of his/her duties, deputising as required.
- Ensuring the facilities are designed, built and commissioned in compliance with all relevant statutory and project regulations.
- Liaise closely with the EPC Contractor personnel at the Module Fabrication Yard(s) and Construction Site on all Piping Engineering matters, ensuring yard/field technical queries are resolved in a proper and timely manner.
- Monitor all Piping Engineering design and procurement work performed by the EPC Contractors and other third party designers/vendors, providing oversight and guidance, ensuring that all work satisfies

clients' specifications and standards.				
--	--	--	--	--

For detailed information on PC Components and various system processes and procedures, including PCs, Quantum, etc for PC related projects.

				
Provide Engineering Department input into the preparation, review, and approval of procurement of the Project's supplies, list and factor/vendor, the Qualification and these Requirements, Exclusions, etc.				

head audits related to the Piping discipline of the EPC contractors and subcontractors and on-site audits from outside parties.

- Support the QA Manager in resolving Piping Engineering non-conformances, concession requests, etc.
- Support precommissioning and commissioning, etc. as required.
- Manage the relevant interface(s) with stakeholders, ensuring the operations function is well prepared for eventual project ownership, including the timely handover of the agreed Piping Engineering deliverables

to support training, operations and maintenance procedure development, Maintenance Management System population, etc.

Functie-eisen

- Excellent team player.
- Strong interpersonal, communication and influencing skills.
- Strong planning and organizing ability.
- Highly motivated, achievement oriented.
- Ability to interface effectively with people of all levels, both internal and third parties, and with wide ranging cultural backgrounds.
- Able to define and prioritize issues and then solve the problems through networking with other team members or external sources.
- Innovative, with an eye for identifying opportunities to reduce costs and challenge the status quo.
- Good understanding of business drivers and ability to align design philosophies.
- Broad estimating skills and practical understanding of costs (capital, operating, life cycle).
- Willing and flexibility to travel although the role will be based in Antwerp.
- Good verbal and written communication skills in English.

It would be advantageous if you would also have the following background work experience:

- Major project experience with strong design engineering/procurement background and a broad understanding of multiple disciplines and their interfaces.
- Proven track record of delivering leading SHE performance.
- Experience of supervising work in a Contractor's Design Office.
- Experience of supervising work in a Module Fabrication Shop.
- Experience of field engineering and/or construction on a major Construction Site.

Specific Role Requirements:

- Degree qualified and chartered or equivalent in appropriate engineering discipline.
- More than 15 years' experience in Engineering role at Oil and gas or Petrochemical setting. Operations experience would be a significant advantage.
- Seasoned and experienced Engineer.
- Experience of layout and 3D model reviews are essential preferably in Hexagon Smart 3D.
- Sound knowledge of key discipline areas including: Belgium Piping regulations and laws & roles and Responsibilities of Notifiable Bodies, and their equivalent.
