

## CarPlay Fiat 500 ORGINEEL Activatie Apple CarPlay Android (129 EUR)

Locatie **Utrecht, Maarn**  
<https://www.advertentiax.nl/x-2087200-z>

Schepers Autotechniek Maarn

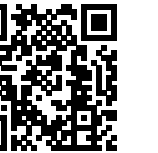

Meer dan 25 jaar exclusieve ervaring in Fiat, Alfa Romeo en Lancia.

CarPlay Fiat 500 ORGINEEL Activatie voor alle Fiat 500's met exact deze radio, vanaf 129 euro EX BTW.

Met behoud van eigen radio, dus inbouw ander scherm (waarvan de stuurbediening niet werkt of kwaliteit te wensen overlaat) niet nodig.

10 minuten vanaf Utrecht, geopend van maandag t/m zaterdag.

Alleen voor de afgebeelde originele radio.

|                                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                                                     |
