

# Appletree Lukes leaf 51 (550 EUR)

Locatie Zuid-Holland, Rijswijk

Top board met de onbreekbare en waterdichte constructie van het legendarische Appletree. Ze kunnen eigenlijk niet breken (nog nooit gehoord en hier adverteren ze ook mee). Traction pad van Mystic is als nieuw.

Mag weg omdat ik 3 andere Appletree boards heb, een beetje teveel van het goede. Boardbag krijg je erbij als je wil (oudje).

Het board is in goede staat, maar wel gebruikt uiteraard. Het board heeft een paar deukjes en een met epoxy gerepareerde beschadiging (zie foto's), maar is 100% waterdicht (sowieso met de waterdichte Appletree constructie).

Je mag zelf 3 vinnen kiezen (zie foto's wat er nu op zit en laatste foto van m'n andere vinnen).

Beschrijving van de Appletree site:

Small, loose, easy to rotate and perfect for those big airs. The Luke's Leaf is a no-nonsense freestyle kiteboard design. Just a perfectly tuned combination of outline, rocker and bottom contour.

There is quite a bit of hidden volume in the Luke's Leaf, so you can ride it very short. The idea is to make the board light so it travels with you through the air.

Thicker middle section

The board's profile is a strong, thick middle section and the leading edges or glass rails are a bit more rounded. You will have to use your arms to break and move this. The Appletree's construction method is not a worry. You can worry about yourself and the board. And the board won't always be a worry too!

Small template

The Luke's Leaf will need a bit of power to get going. The small template gives less upward pressure than other boards. So as a beginner rider in strapless freestyle, other models might be more suitable. Advanced riders will love the response and pop the Luke's Leaf.
