Geweldige HP Omen monitor 144hz met 4k resolutie nieuw in doos, met factuur. Stuur me een bericht bij interesse.

2024 model

Vaste prijs 350€

Jump into high gear with your online games on the HP OMEN 27k inches 144Hz 4K gaming monitor. Thanks to the 144Hz refresh rate and 1ms response time, you game with smooth images that look extra sharp in 4K resolution. That way, you can play games up to 4 times sharper than in Full HD and enjoy the sharpest details. Do you game with a video card? No worries, the monitor has FreeSync Premium. You can synchronize an AMD video card with this and prevent screen tearing and slowdowns this way, even when you've turned on HDR. Enjoy extra vibrant colors thanks to the QHD resolution, 95% coverage within the DCI-P3 space, and the DisplayHDR 400 support. This color space displays more colors, so a lake or sea really looks blue. More of a console gamer? Connect your PlayStation 5 or Xbox Series X|S via the HDMI 2.0 port and enjoy 120Hz Full HD console gaming. You can also tilt and adjust the monitor in height to set up an ergonomic sitting position. This prevents back and neck pain after a long gaming session. Are the DisplayPort and HDMI ports full and want to connect an extra PC? No problem. The USB-C port combines power, data, and image. You can quickly switch between all connected devices via the built-in KVM switch, so you don't have to constantly switch cables. That's useful in case you also use

the monitor for work for
