

HP Proliant Microserver N54L (120 EUR)

Locatie Zuid-Holland, Voorburg
<https://www.advertentieX.nl/x-2092722-z>

Old file server for a company, I have used it at home as a file/media server for the past few years. With the single core CPU it is getting to slow for my needs, so I have upgraded.

Still works well just a slow device for the current time.

NO DRIVES
