

Oplaadkast (centenna t36 charging cart)

Locatie **Utrecht, Amersfoort**
<https://www.advertentiax.nl/x-2094738-z>

Onze school heeft drie van deze kasten in de aanbieding.
 Los of samen te koop. Per kast kunnen er 36 devices tegelijkertijd veilig opgeslagen en opgeladen worden.

Nieuwprijs rond de € 1500,- (zonder B.T.W.)
 Ze zijn vijf jaar gebruikt.

Van harte welkom om (in Amersfoort) even te komen kijken zo gewenst.
 Hieronder de tekst van de website van de leverancier:

A mobile charging station on wheels for mobile devices. Durable and sturdy steel yet lightweight construction that you can close with key-lock, often seen in schools and educational institutions. The design has rounded corners and no protruding parts such as a handle or doorknob.

The charging trolley can be used for tablets or notebooks such as Chromebooks, Netbooks, Ultrabooks or Macbooks. The devices are placed vertically into slots which are on drawers. Costly computers are neatly and securely stored. Thanks to the integrated charge module with timer switch, one wall socket is sufficient.

The front swings open 270 degrees so that the door is against the cabinet's side. With cable management

on the shelf dividers there is no tangle of cables. With the P-Tec 36 positions mobile charging unit all kinds of brands and model portable devices can be stored and charged. The units can be used for tablets and notebooks with a USB connection.

The charging equipment is packed with a lock back to the rear of the unit and this way the adapters are plugged into sockets. There is also a smart timer at the back, which saves energy. Built-in ventilation with the fans is reached by strategic placement of air inlet and outlet grids. A noiseless mechanical fan is not necessary and the cabinet is quietly charging. A robust solution for management, transport, management and storage of mobile devices.

Advantages P-Tec T36 cart for mobile devices:

Maneuverable Sturdy steel construction handle sunk into the door No protruding parts or sharp
