

(English Below)

The original Dutch car from September 2022.  
I am the second owner.  
This car is fully equipped with a leather interior and panorama roof.  
The car has always been maintained at the official dealer.  
Two sets of aluminum original rims, summer and winter with two sets of tires. Two winter tires are completely new, bought a month ago (DOT number from 2024).  
The car runs smoothly and it's in perfect condition.  
I am selling it due to family expansion as I want to buy a 7-seater car.
