

## ABS Corvette C4 MN6 ZO6 2000 2001 0939057010315150 SB ECU (0 EUR)

Locatie

Noord-Brabant, Helmond

<https://www.advertentiax.nl/x-228987-z>

Problemen met het ABS systeem komen regelmatig voor bij oa Corvette, Jaguar, Volvo, Seat, Audi, VW en BMW. Problemen kunnen sporadis optreden maar ook een totale uitval. Wanneer het systeem uitvalt gaat het abs lampje branden. Bij uitlezing van de computer kunnen verschillende storingen optreden oa foutcodes: C 1214 HC , Code 1243 en wiel sensor links, rechts defect. In werkelijkheid is dan vaak de abs electronica module defect en niet de sensoren. Deze module zit boven op de pomp gemonteerd en kan eenvoudig verwijderd worden (meestal Torx 20 bitje nodig). Een aantal type die we oa repareren staan hieronder in de tabel:

Levering duurt normaal 1 werkdag, ook kan op afspraak langs gekomen worden voor een spoed opdracht (Kosten zijn dan meestal 275EUR inclusief). Voor verder vragen kunt u graag contact opnemen met ons! Tel 0492 78 54 40
