Deze monitor, ontworpen door Porsche, is een juweel om te zien, maar heeft ook een zeer goede beeldkwaliteit. Geen dode pixels en alle toebehoren nog aanwezig, incl. de verpakking. Onder de € 40 gaat de verkoop niet door! Reageren liefst per email.

"For most people sitting at a computer system for hours at a time the monitor is the one part of the ensemble that seems to be most observed. Until recently we never really had the opportunity to describe it with such words as opulent, luxurious, cultivated, and cultured. Wait a minute were talking about a Computer Monitor! Can a computer monitor be described with such a description? Well it can if it looks like the new Samsung SyncMaster 173P, designed by Porsche design house with shaved corners and a few more curves.;
