Get connected - without the wires.

Make and receive calls wirelessly, as well as stream music via your Bluetooth CD Tuner: the DEH-P85BT supports both handsfree and audio profiles from your mobile phone. This means that you don't need any additional in-car kits, cradles, wires or headsets.

You can take your digital music collection in-car, too. The 85BT plays every audio file format, but you can also connect your iPod with the optional CD-I200 connector. Alternatively, if you have a USB music source, you can also connect it using the optional CD-UB100 adapter.

Made for iPodYou can control this CD Tuner with its 'rotary commander', which works very much like a joystick essential for navigating through your WMA, MP3 and iTunes audio files.

Play with your MP3/CD player x 4 and other. DEH-P85BT has 3 CA pre-amps. You can also use it in conjunction with additional amplifiers, speakers and subwoofers.
