GPS: Yes, with A-GPS, GLONASS
Java: No

As a general remark, the phone has an excellent behaviour. Although the specs seem low compared with the new phones on the market, the operating system does not require high resources as Android. I used it daily and I can tell you that it behaves excellent.
The reason for selling this phones (2 pieces) is that I bought it recently a windows phone with 2 simm cards.
The pictures in the ads are made with this phone. As a general remark I use this phone to take day to day pictures since I do not need a dedicated.
