Vertoont het dashboard van uw auto kuren?  
 Dat is een bekend probleem, met name bij de Renault Scenic en Espace tellers uit de bouwjaren 2003 t/m 2008.  
 De teller begint vaak met het resetten van de tijd en dag.  
 Daarna zal het display gaan knipperen en zal de kilometerstand ineens zonder aanwijsbare reden omhoog springen.  
 Uiteindelijk zal dit leiden tot het compleet zwart blijven van het dashboard.  
 Het is een bekende kwaal die al jaren de kop op steekt.  
 Goede service en kwaliteitHet repareren van Renault kilometertellers vereist de nodige kennis, de juiste onderdelen en natuurlijk de beste apparatuur.  
 Wij werken uitsluitend met originele Renault Scenic of Espace kilometerteller onderdelen.
