NIEUW F-One Twin Tips TX *NIEUW

F-One Twin Tips TX The research and development team at F-ONE has decided to retain the shape of the TX 2012 because it perfectly combines performance, comfort and accessibility. Benefiting from technologies developed for the TRAX, it is intended for riders who want versatility with performance and accessibility.

Its single concave bottom combined with side channels provides a quick early planing, directional stability and excellent ability to pass through choppy waters.

The lateral V helps with edging and makes it more tolerant in passing the chop.

The TX 6 is a playful freeride board. It provides an intuitive navigation with great versatility. It will even surprise the best freestylers!
