Selling my Amazon Kindle DX that I bought about half a year ago. Works great with no problems and battery is also in great condition (last about 2 weeks of normal use).

I'm selling it because I just don't use it. This is my first kindle and I thought I would find good use of it in the university, but I didn't.

Unlike other Kindle devices, this one has a huge 9.7 inch screen, which is great for reading (not very portable though). Also Kindle DX comes with a free 3G internet that works in Netherlands and many more countries in the world.

Now, for the cosmetic condition, it does have some light scratches here and there (view photos) and also couple of surface scratches on the screen. Those scratches do not effect functionality! I scratched it during the airport security check actually.

I will include a samsung branded micro USB cable and LG branded charger (works great).

Price is 100 EURO and I will not go lower, so please, do not contact me for negotiations.

I live in Eindhoven and will sell it here only so shipping is not an.
