Bluetooth goed

Description

The BC6000m Bluetooth® car kit is a professional built-in carkit known for its latest techniques in handsfree communication. The product has a small and subtle design, which makes it suitable for every car interior. The BC6000m offers the possibility to connect with 2 phones at the same time so that you can handle several conversations simultaneously. The BC6000m has an excellent sound quality because of the full duplex DSP technology, echo cancellation and advanced noise reduction. This carkit comes in 2 versions: QUICK INSTALLATION and PRO. The Quick Installation version is extremely easy to install. The PRO version works with any with a car stereo, car or home music system, a call recorder.
