Pbx telefoon centrale

This SOHO-PBX -208 system is an ideal telephone system for small offices and home offices. It is very easy to install and use. It has all the standard features comparable to those expensive PBX systems in the market. It works with your current analog phones and you do not need to spend extra money to buy proprietary telephones to work with the PBX.

SOHO-PBX-208 Features

1. Direct or Indirect Dialing Mode

@ To place a call, an user can dial directly the phone number of the called party (Direct Dialing Mode).

@ or indirectly by first dialing the access digit '9' followed by the phone number (Indirect Dialing Mode)

2. Automated Attendant Mode

@ Caller will listen to an user prerecorded greeting message

7. Intercom call

@ Make internal calls from any extension.

8. Facsimile supported

@ Any extension can hook up a fax machine or a PC to send or receive facsimiles.

9. Incoming call alert

@ Engaged extension will receive a call waiting tone alerting the party when there is an incoming call.

10. Toll restriction scheme

@ Long Distance or International Direct Dialing can be disabled on a per extension basis.

11. Secretary assisted dialing

12. Limit CO line call duration

@ External calls can be disconnected at a preset time limit from 1 to 99 minutes on a per extension basis.

13. External call authorization with password protection

@ Permit users with authorized password to make external calls...

14. Power failure tolerant

@ During power failures, extension #1 remains functional and it can still receive or make outside calls.

15. Do not disturb

@ Extension with 'do not disturb' turned on will not ring.

16. No response from caller under Auto-attendant mode

@ In Auto-attendant mode, after greeting the caller to dial an extension number but receiving no responses from the caller, the incoming call can be programmed either be terminated or transferred to the operator.

17. CO line ports can be disabled or enabled individually

@ all CO line ports can be disabled (for Intercom only).

@ any CO line ports can be disabled (if the disabled CO port is not connected to a CO line).

18. Flexible Ring delay on incoming calls

@ An incoming call can be programmed to ring an extension immediately or with a delay of one ringing cycle, to tailor to meet the specific characteristics of the attached telephony device.

19. Enable/disable extensions from accessing CO lines

@ CO lines access rights can be granted on a per extension and per CO line basis.

20. Flexible extension number plan

@ User can assign extension numbers (1 to 4 digits) for the PBX.

21. Recording Outgoing Greeting Message (OGM)

@ User can record his own greeting message which will be stored in the PBX's non volatile memory.

22. Playback OGM

@ User can listen to the recorded OGM or the on-hold music.

23. CO Line ringing assignment

@ An incoming call from a specific CO line can ring one or more extensions, or no.
