ik kan op het moment nog 1 winkel vinden in Italie met een prijs van 628 euro  
de prijs van 325 euro is vast

specificaties hertz hp 5 a five-channel amplifier hertz hp 5 is the most universally equipped with a model series hi-power. With a total capacity of 650 watts, (rms at 4 ohms, thd 1%, 14.4) and an advanced section of the active crossover, hp 5 is ideal for creating an integrated audio system in the configuration of the front + rear + subwoofer or hf + mf + subwoofer (per channel gain). All amps hertz hi-power equipped with a range of unique technical solutions: microprocessor controlled system hp manager monitors the amplifier output and service information on a combined lcd / led display in addition to the classic rca inputs amplifiers are equipped with convenient hp speaker-in connectors for connection to the oem ( factory ) head units. The patented art (auto turn on / off) can be activated by using high-level inputs speaker-in, turns on / off power automatically when the music signal and considerably simplifies the upgrade of staff do not have a separate audio cable remote (council). The package includes a wired remote volume control - rvc (remote volume control). The advantage of this system is the ability to adjust the subwoofer level operations directly in the process of driving the car. Hp 5 - amp without compromises installations. If you want to get the power, sound quality, combined with the look that can make its own unique flavor to any car interior - amplifiers hertz created just for you.
