48 poorts web managed Gigabit Switch in nette staat. Meerdere beschikbaar.

Specificaties:

Affordable, Managed Gigabit Switching with Flexible Uplinks

The "smart" voice-ready 3Com Baseline Switch 2948-SFP Plus is a web-managed Layer 2 Gigabit switch. It offers enterprise-class features, customized and priced for small- and mid-sized organizations.

With an easy-to-use switch interface and advanced features (VLANs, IEEE 802.1X authentication and Rapid Spanning Tree), this switch is the most cost-effective way to provide a converged network.

Layer 2 Switching with Advanced Features

The Baseline Switch 2948-SFP Plus has forty-eight 10/100/1000 ports and four dual-purpose Gigabit ports (copper or SFP-based fiber) to connect to high-performance computers, servers, or core network backbones.

This "smart" switch has the features that help build a voice ready network, with support for auto-voice VLAN, SNMP-based management, IGMP snooping and query, and IEEE 802.1X and advanced Access Control Lists (ACLs) for strengthening security.

The switch provides non-blocking performance- all ports perform at wirespeed which helps to eliminate network bottlenecks. SFP link aggregation (IEEE 802.3ad) allows ports to be automatically grouped together to form a high-speed, non-connected, multi-laterally expanded bandwidth capable network backbone.

The Baseline Switch 2948-SFP Plus also supports Spanning Tree and Rapid Spanning Tree, traffic prioritization, priority queuing and VLANs. These switching features ensure optimal use of available bandwidth as traffic flow is directed according to the needs of the business.

No Switch Setup Required

This Baseline Plus switch is operational straight out-of-the box; as long as default settings are acceptable there is no need to configure the switch. If desired, the switch can be configured using a web

Producteigenschappen van 3Com 3CBLSG48 Baseline 2948-SFP Plus

- . Ports

- . 48 autosensing 10/100/1000 ports; 4 Gigabit SFP ports, dual-purposed with 4 of the 10/100/1000 ports

- . Performance

- . 96 Gbps, max.; wirespeed performance across ports

- . Layer 2 switching

- . full-rate nonblocking on all ports, full-/half-duplex autonegotiation, flow control,

- . IEEE 802.1Q VLAN support, IEEE 802.1p traffic prioritization, IGMP snooping; more

- . Convergence

- . 4 hardware queues per port; traffic prioritization at Layer 2 (802.1p) and at Layer 3 (TOS with DSCP);

- . auto-VLAN assignment for voice traffic; more

- . Security

- . IEEE 802.1X network login; advanced ACLs

- . Switch management

- . Web-based configuration, 3Com Network Supervisor and Network Director, other SNMP management tools;

- . CLI using console port

- . Dimensions

- . height 4.4 cm (1.7 in or 1 RU); width 44.0 cm (17.3 in); depth 23.8 cm (9.4 in)

- . Weight: 2.5 kg (5.5 lb)

- . Package Contents

- . switch unit

- . power cord

- . self-adhesive rubber pads

- . console cable

- . rack-mount kit

- . product CD

- . warranty and safety information
