

## Thermostaat Nissan Micra K10 K11 K12 1.0 1.2 1.2 16V (4,75 EUR)

Locatie **Noord-Brabant, Boxtel**  
<https://www.advertentienx.nl/x-553914-z>

Thermostaat Nissan Micra

Geschikt voor:  
 NISSANMARCH I (K10)198212 - 199211  
 Body Engine CC KW HP Cylinder Type Year  
 1.0 Otto 988 40 54 4 Hatchback 198212 - 198905  
 1.0 Otto 988 37 50 4 Hatchback 198212 - 198912  
 1.2 Otto 1235 44 60 4 Hatchback 198607 - 199207  
 1.2 Otto 1235 40 54 4 Hatchback 198607 - 199207  
 1.0 Otto 988 43 58 4 Hatchback 198212 - 199105  
 NISSANMARCH II (K11)199201 - 200302  
 Body Engine CC KW HP Cylinder Type Year  
 1.0 Otto 988 40 54 4 Hatchback 199201 - 199304  
 NISSANMARCH III (K12)200301 - 201005  
 Body Engine CC KW HP Cylinder Type Year  
 1.2 16V Otto 1240 59 80 4 Hatchback 200301 - /  
 1.2 16V Otto 1240 48 65 4 Hatchback 200301 - /

Manufacturer Number Description  
 4MAX 021202017588P

|                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                           |
