

## Audi naviplus RNS E, D multimedia adapter interface DVD CD

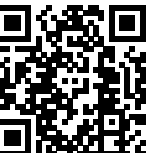

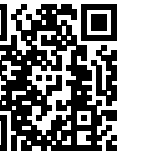

Locatie **Gelderland, Twello**  
<https://www.advertentiax.nl/x-623237-z>

Een Multimedia adapter voor PAL / NTSC.  
 Bedoeld voor oa. de Audi RNS-E en Audi NaviPlus (RNS D).

Maar ook behorende tot:  
 VW MFD 2 en RN S2.  
 MB Comand 2.0 en 2.5.  
 Seat MFD2.  
 Skoda/VW Nexus.

Om bijvoorbeeld een DVD-speler, game-console, MP3 speler of DVB-T Tuner aan te kunnen sluiten.  
 Bovendien geschikt voor aansluiting van een achteruitrij camera.  
 De adapter geeft u tevens de mogelijkheid het aangesloten apparaat met de toetsen van het navigatie systeem te bedienen.  
 Deze multimedia adapter is overigens ook nog eens voorzien van een automatische omschakeling naar achteruitrij camera.

Werkt met de volgende 16:9 groot beeld navigatie systemen:  
 Audi - Navi+ RNS D en Audi RNS-E.  
 VW - MFD2 RN S2 CD en DVD uitvoering.

|                                                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                                                               |                                                                                                                                                                                                                                                                               |                                                                                                                                                                                                                                                                               |                                                                                                                                                                                                                                                                               |                                                                                                                                                                                                                                                                               |
