Cargo bikes types which I can make with more practical design and stronger Canvas:

Boxbike, Troy, Babboe Big, Babboe City, Babboe Curve, bicycle factory Smart/BF18, BF16, FF Classic, Johnny Loco, 't Mannetje, Stabilo, Ilse, Anish and Nihola Family.

What's improved over a regular cargo-bike-cover of the manufacturer: basic cover:-The cover can remain outside all year round because:-the canvas what is used is very strong, double coated, mold resistant, color fast and can not tear, against the Frost and heat (-30 to + 70 degrees celsius). The canvas is very easy to clean with just water and a soft clean cloth.

-Window parts consist of a window film that extra bright and is processed in the cover so the parent can see the child and the child has a good view to the outside.

- Window parts can be unzipped a lot higher and is extensively processed in the huifje.

-Easier in and out because there is more room by the window as far as parts that can be opened

- Safety: A small flap at the bottom with a thumb hole. You can hang your bicycle like

the handle calls on the entire back of the subject's back allowing the pin retention

The customer can choose suit color (see the cover).

are made from recycled paper, a print that's good for the environment.

- To place the cover on the Cardo-Bike is now easy with a few velcro and elastic straps and other straps
