1997 Thunderace Spring opportunity!!

Yamaha thunderace from 1997. I am the second owner (since 1999). The bike is originally Dutch, registered in NL in 1997 and kept in NL since. It is standing inside in a heated garage.Â

The bike has only been driving 1000 km the past 8 years (Yes I have a child of 8 years old). Every year the bike got new oil, new fuel, new chain grease and new cooling liquid before a nice run of about 100 km. Afterwards it has been standing inside the rest of the year until the sequence has been repeated the subsequent year.Â

This year I am not going to do any of the maintenance, hence the bike:

- Has a layer of dust
- Has an empty battery
- Has not moved (or been started) for 12 months
- Has a titanium exhaust
- Has a single seat conversion cover
- Has very few km on it (35.139 km)
- Has a bubble glass
- Has frame sliders

You have one hour and 30 minutes to get through like cheese. All you need to do is peel it up (like you travel), wash it, change or change the battery, change the oil, wash it and change the oil.

I will accept highest offer above 1000 Euro.

If you want me to do the maintenance (and show you it is running) I will add 500 Euro to the price. \hat{A}

Feel free to contact me in Dutch. I read and speak dutch, but writing dutch is still not.
