Are you looking for a great camera? Are you a Nokia fan? This is the perfect phone for you!

I bought this phone in November 2014 and I have barely used it because I never got rid of my old phone.

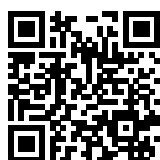

The phone is great, but I'm afraid my photography knowledge is not enough to take advantage of the powerful camera.

The design is super nice, especially if you like Nokias. It comes with Windows 8 and Office!

There's a small crack on one of the corners.
 The screen is new (put it on three weeks ago).
 The camera makes a small noise.

Some more info from the phone's website:

4.5" Display 41.0 MP Main camera sensor 32 GB Mass memory 14G LTE Network Front camera: HD 1.2 MP wide angle Processor type: Dual-core 1.5 GHz Charging: Wireless charging with accessory cover Maximum talk time (3G): 13.3 h

Nokia lumia 1020 yellow

The Nokia Lumia 1020 takes photos and videos that no other smartphone can match. With a 41 megapixel camera sensor, PureView technology, Power Image Stabilizer and amazing high resolution video.

With the Lumia Camera app on the Nokia Lumia 1020 you can shoot in super high resolution, which means you can zoom in close to your subject after you've taken it. You can adjust focus, shutter speed, white balance and more with easy and intuitive controls.

Capture sharp, detailed HD video, and zoom in up to six times without losing quality. And with Rich Recording, you can capture distortion-free, stereo sound so you can relive the moment as if you were there again.

The Nokia Lumia 1020 with Windows Phone 8 comes with built-in Microsoft.
