

Fiat - Panda 1000 Cabrioni - 1987

Locatie **Noord-Holland, Amsterdam**  
<https://www.advertentiax.nl/x-715723-z>

Bouwjaar: 1987  
Afgelezen tellerstand: 41.650 km.  
Apk geldig tot: 15-12-2016

Er zijn van 1987 tot 1990 150 nieuwe Fiat Panda's omgebouwd tot cabriolet. Dit werd gedaan door de carrosseriebouwer Cabrioni. Die destijds gevestigd zat in Huissen (Gelderland). Er zijn nu nog maar zo'n 35 Fiat Panda's Cabrioni over in Nederland dat maakt het een zeer unieke verschijning.

Originele Nederlands geleverde auto.

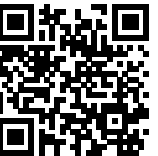

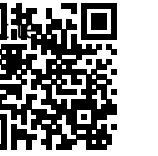

De auto is technisch in orde en rijdt ook zoals het hoort.

Alle boekjes zijn nog aanwezig bij de auto.

De auto heeft een te restylen (uitdeuken zonder spuiten) deukje in de linker en rechter deur. En ook zitten er wat kleine roestblaasjes aan de linker deur.

Dit voertuig kan bekeken en afgehaald worden in Roelofarendsveen, Nederland.

Biedingen zijn exclusief transport en export, tenzij anders aangegeven.

|                                                                                                                                                                                                                        |                                                                                                                                                                                                                         |                                                                                                                                                                                                                         |                                                                                                                                                                                                                         |                                                                                                                                                                                                                          |                                                                                                                                                                                                                           |                                                                                                                                                                                                                           |                                                                                                                                                                                                                           |                                                                                                                                                                                                                           |                                                                                                                                                                                                                           |
