

# Te koop Infinity ref. 7541A 4 versterker (4-kanaals) (119,95 EUR)

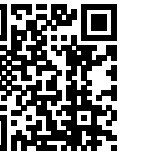

Locatie **Utrecht, Utrecht**  
<https://www.advertentiax.nl/x-717511-z>

Te koop: zeer goede 4 kanaalsversterker van het merk Infinity, model Reference 7541A.

Heb de versterker een paar jaar naar volle tevredenheid gebruikt in combinatie met een Infinity speakerset. In verband met de aanschaf van een andere auto kan de versterker nu worden overgenomen door iemand die waarde hecht aan kwalitatief goed geluid. De Infinity kan worden afgehaald in Utrecht voor het bedrag van 119,95 euro (of elk aannemelijk bod). Verzenden kan ook voor EUR 6,50. De versterker is werkend uit mijn auto gehaald en verkeert technisch in prima staat.

Volledige specificaties:  
 \*4-channel car amplifier  
 111 watts RMS x 4 at 4 ohms (139 watts x 4 at 2 ohms)  
 278 watts RMS x 2 bridged output at 4 ohms (4-ohm stable in bridged mode)  
 front and rear variable high-/low-pass filters (32-320 Hz, 12 dB/octave)  
 variable bass boost (0-12 dB at 50 Hz)  
 MOSFET power supplies  
 CEA-2006 compliant  
 Tri-way capable (Tri-Way crossover required)  
 preamp- and speaker-level inputs  
 preamp outputs  
 8-gauge power and ground leads with a 60A fuse recommended  
 wiring and hardware not included with amplifier  
 fuse rating: 30A x 2  
 Signal-To-Noise Ratio 81 dB  
 Amplifier Output 4-channel  
 High Level Inputs yes  
 Supply Voltage 14.4V DC, 14.4V DC  
 CROSSOVER\*  
 Type 2-way active crossover  
 Crossover Slope 12 dB/octave  
 Low Pass Frequencies 32 - 320 Hz  
 High Pass Frequencies 32 - 320 Hz  
 Bass Boost Gain 0 to +12dB  
 DIMENSIONS & WEIGHT\*  
 Width 15 inch

|                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                      |
