

# Suzuki GS550D 1978 Caferacer (2.950 EUR)

Locatie **Noord-Brabant, Eindhoven**  
<https://www.advertentiax.nl/x-744254-z>

Daar gaat ie dan..Â Mijn GS moet helaas plaats maken.  
 Hij is aardig verbouwd, niet om blinkend in een showroom te staan maar gewoon om lekker mee te rijden zoals ie graag wil.

Praktische, betrouwbare motorÂ die je veel plezier en bekijks geeft. Nog genoeg dingen die je zelf eventueel kunt aanpakken om hem nog mooier/beter te maken, maar gewoon kilometers gaan maken kan ook!

Ik deel t even op in plussen en minnen:

- + Unieke monovering, custom made, degelijk gebouwd met Honda vering
- + Ketting+tandwielen prima
- + Mooie spaakvelgen, voor double disc, achter trom
- + Banden zgan (Batlax)
- + Unieke GS750 tank met custom knietjes, ook rondom de tankdop strak gemaakt
- + Home made kontje
- + Home made clipons en teller behuizing
- + UNI luchtfilters
- + Led achterlicht
- + Lithium accu zgan (LFP-14)
- + Nieuwe spanningsregelaar (dikke upgrade)
- + Heeft laatst een harttransplantatie gehad (nieuw blokje, mooieÂ compressie)
- + Future demper voor een beschaafd geluid

|                                                                                                                                                                                                                                |                                                                                                                                                                                                                                 |                                                                                                                                                                                                                                 |                                                                                                                                                                                                                                 |                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                   |
