

## Chrysler 300M 2.7 I V6 AUT 2000 Blauw

Locatie **Friesland, Nijland**  
<https://www.advertentiax.nl/x-780779-z>

In verband met aanschaf Chrysler Voyager biedt ik mijn 300M te koop aan. Deze fijne reisauto heeft onlangs een APK gekregen en er zitten 4 nieuwe Michelin crossclimate banden onder. De bekleding is heel en alle opties werken (airco-cruise control-etc). Aan de zijkant zit een kras door een auto die er langs is gereden. Verder een eerlijke en goed onderhouden.

|                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                           |
